8001	Transport packaging
9000	Service packaging
9010	Paper/cardboard service packaging
9020	Aluminum service packaging
9030	Plastic service packaging
9040	Service packaging (other materials)

Packaging Categories (B column)

Code 1 - Packaging is in direct contact with the product

This packaging stays with the product until it is consumed or used for the first time. It includes all the elements attached to the product (cork, label...). This type of packaging is often sealed to protect the product.

Code 2 – Sales unit packaging

This is the packaging of products presented as sales units, as displayed for consumers to buy from the shelves in supermarkets. It can be the packaging that is in direct contact with the product or a packaging that can contain one or several other packaging items in direct contact with the product, or wedging or outer packaging.

Code 3 – Wedging

This is a packaging element added to the packaging that is in direct contact with the product or with the packaging of the sales unit. Wedging blocks the product inside the packaging of the sales unit, buffers impacts or separates products from each other. Wedging can be easily eliminated by the final consumer without having any influence on the use or consumption of the product.

Code 4 – Outer packaging

This is a packaging that is added on top of the packaging in direct contact with the product or the packaging of the sales unit. It makes the presentation, the selling, the bundling or the transport of the product easier for consumers. It guarantees the integrity of the product. It can be eliminated easily by the end consumer without having any influence on the use or consumption of the product.

Nomenclature

Code 5 – Secondary or bundle packaging

This is any packaging designed to make up – on the point of sales – a bundle of a certain amount of sales units, be the bundle sold as such to the final user or consumer or be only used as a bundle to replenish the shelves on the point of sale.

Code 6 – Tertiary or transport packaging

This is any packaging designed in order to facilitate the handling or transporting of a certain amount of sales units or bundle packaging so as to avoid the damages linked to the handling and transporting of the goods.

Code 7 – Service packaging

This is any packaging filled and/or created on the point of sale “in presence of the consumer” generally at the time of purchase – shopping bag, fruit and vegetable bag, pastry box, bread bag, wrapping paper for meat products, etc.

Packaging Elements (C column)

001	Aerosol
002	Light bulbs
003	Barrel
004	Punnet
005	Pourer
006	Tin/Can
007	Tobacco pouch
008	Thermally molded blister, heat sealing blister
010	Reel/Spool
011	Jar
012	Alveolar box, alveolar case
015	Bowl
017	Carboy

018	Cork, stopper
019	Bottles
022	Beverage cartons
023	Cans, preserves
024	Crates
025	Wedge, styropor wedging, stiffener
026	Carafe, small carafe
027	Cartridge
028	Rack
029	Cap, top, capsule
030	Easel, stand
031	Chest, casket
033	Collar
034	Thermally molded shell
035	Cone
037	Cushion
039	Lid/Cover
040	Brace
041	Square plastic container, bag-in-box
042	Demijohn
043	Case
044	Stuffing (flakes, wood chips, quilt hair)
045	Holding and formatting elements (holding cardboard, collar stand...)
046	Dehydrating packaging, humidity and choc indicators
047	Envelope
048	Wrapping (candy, individual portions)
049	Label
050	Case (hard, soft), cassette
052	Wrapping paper sheets (aluminum, Kraft paper, greaseproof paper, gift wrap...)
053	Plate (corrugated board, fibers)
054	Strings (ribbon, sticky tape, curling ribbon, steel strip, rope)
057	Net (tubular)

058	Wrap (chemically foamed alveolated, bubble wrap)
061	Flask (applicator flask)
063	Sheath
064	Cup, paper cup
066	Insert - internal
067	Cover
068	Jerry can
069	Bond (flexible bond, rubber band)
071	Suitcase
072	Muff
073	Basket
074	Tray (alveolar, egg tray)
077	Pick-up (hook system), staple
078	Pocket, pouch
079	Pot
080	Display pedestal, plinth
081	Bags (flat-bottom bags, canvas bags, hessian bags)
084	Bucket
085	Skin-pack
087	Stick
088	Stockinet
089	Terrine
090	Keg, cask
091	Tube (flexible, stiff, stick)
095	Aerosol valve, spray, pump
096	Staple, pin, rivet
097	Joint
099	(Other)
100	Roll, ball bearing cylinders

Packaging Materials (D column)

1 GLASS

101	White glass
102	Green glass
103	Brown glass
104	Glass other color
105	Non-recycled glass (opal glass containing fluorine, glass containing more than 600ppm of heavy metal or fluorine)

2 PAPER/CARDBOARD

201	Paper
202	Cardboard
203	Paper/cardboard

3 METALS

301	Steel
302	Aluminum
303	Other metals
304	Steel/aluminum
305	Steel/other metals
306	Aluminum/other metals

4 PLASTICS

401	PET
402	PVC
403	PE
404	Other single material plastics
405	Other multiple material plastics

5 COMPOSITES

501	Paper-cardboard/steel
502	Paper-cardboard/aluminum
503	Paper-cardboard/different metals
504	Paper-cardboard/plastic

Nomenclature

- 505 Paper-cardboard/plastic/aluminum
- 506 Paper-cardboard/plastic/aluminum/steel
- 507 Paper-cardboard/plastic/others
- 508 Paper-cardboard/other materials
- 509 Plastic/steel
- 510 Plastic/aluminum
- 511 Plastic/other metal
- 512 Plastic/other materials
- 513 Glass/steel
- 514 Glass/aluminum
- 515 Glass/plastic
- 516 Glass/other metal
- 517 Glass/other materials
- 518 Other composites

- 6 NATURAL MATERIALS
- 601 Timber (Wood)
- 602 Textile
- 603 Ceramics/earthenware
- 604 Other natural materials

Fees (E column)

Primary packaging

- 001 **The Glass fee**
applies to all glass packaging items except for light bulbs, Pyrex, crystal, opaline and fluorine-based packaging items. For the latter, the price applicable is the Other Non-Recoverable scale price.

- 002 **The Paper/Cardboard fee**
applies to all paper/cardboard packaging that contains less than 15% in weight of other glued or laminated materials i.e. that cannot be easily separated by consumers. For packaging items beyond the 15% percentage, the Other Recoverable or Other Non-Recoverable scale prices shall apply according to the rules explained hereafter.

- 003 **The Steel fee**
applies to all packaging items that have more than 90% weight in steel. Under this percentage, the Other Non-Recoverable scale price shall apply.

- 004 **The Aluminum fee**
applies to all packaging items that have more than 50% weight in aluminum of a minimum thickness of 50 microns. Under this percentage, the Other Non-Recoverable scale price shall apply.

- 005 **The PET fee**
only applies to PET bottles, to their caps and to their shoulders. Any PET packaging item other than bottles or flasks, as well as their caps are being applied the Other Recoverable scale price.

- 006 **The PVC fee**
 Since the 1st January 2010 PVC packaging peculiar sorting process doesn't exist anymore. That's why PVC packaging material is subjected to the "other recoverable fee" (009).
- 007 **The HDPE fee**
 only applies to HDPE bottles and their caps. Any HDPE packaging item other than bottles or flasks, as well as their caps are being applied the Other Recoverable scale price.
- 008 **The Beverage Carton fee**
 applies to any laminated packaging – with or without seal – made of cardboard/plastic or cardboard/aluminum/plastic, used to pack liquids – mainly milk, milk-based beverages and fruit juices or fabric softeners and detergents (refill). Aluminum and/or plastics must represent more than 15% of the weight of the packaging item.
- 009 **The Other Recoverable fee**
 applies to all packaging elements that are not covered by the previous prices but are made of materials considered as recoverable (codes: 201, 202, 203, 302, 401, 402, 403, 404, 405, 502, 504, 505, 510, 601, and 602).
- 010 **The Other Non-Recoverable fee**
 applies to all packaging elements and/or materials that do not fulfill the conditions for the application of the aforementioned fees.

Secondary and Tertiary Packaging

- 102 ***The fee for commercial Paper/ Cardboard packaging**
 applies to secondary and tertiary packaging – i.e. bundling and transport packaging – made of cardboard and/or paper. These are mainly cardboard boxes and cardboard wedging.
- 106 ***The wooden commercial packaging**
 refers to wooden secondary and tertiary packaging (bundle or transport packaging). It concerns essentially wooden boxes used in the food industry.
- 109 ***The fee for commercial Other Materials packaging**
 applies to secondary and tertiary packaging – i.e. bundling and transport packaging – made of plastic and other materials. These are mainly plastic films and trays, polystyrene wedging elements, etc.

* These packaging materials must be declared but they will only be invoiced to you retroactively to January 1st 2002 (since the 1.1.2009 for wood) based on the specific fee applicable to bundling and transport packaging (Code 102 – commercial Paper/Cardboard, Code 106 – standard wood (no pallets), Code 109 – commercial Other Materials like plastic films, etc.) The calculation takes into account the specific cost inherent to the collecting, sorting and recycling of these packaging flows.
